

LEXI DR - DISASTER RECOVERY

Seamless Disaster Recovery

LEXI DR (Disaster Recovery) offers peace of mind by providing a seamless failover when access to LEXI cloud has been compromised. This means that when things don't go as planned and you lose connectivity your captions are not at risk.

While you're dealing with disaster recovery, with LEXI DR as your failover solution you can be assured that your content will always be captioned and you continue to meet regulatory requirements.

BENEFITS

- ✓ **On-Premises Redundant Servers**
Host your own fully redundant iCap and LEXI server, as a backup should your external cloud connection go down.
- ✓ **Continuous Captioning**
If your primary LEXI cloud captioning service fails due to an outage, LEXI DR automatically takes over until the connection is restored, ensuring minimal disruption to your captioning services.
- ✓ **Seamless Integration**
Within the iCap ecosystem, LEXI DR is designed to seamlessly integrate with your existing LEXI captioning workflow, making it easy to switch between the primary cloud-based solution and the disaster recovery solution with minimal interruption.
- ✓ **Security**
LEXI DR prioritizes security, with robust encryption & advanced security measures, your content remains confidential and protected from cyber threats.
- ✓ **99.99% Uptime Supports Compliance**
LEXI DR aids in meeting compliance requirements by providing a reliable backup solution for captions. This is particularly important for industries subject to accessibility regulations and standards.
- ✓ **Flexible Options**
The solution is simple to set up as a Virtual Machine or hardware option. LEXI DR pricing is easy and affordable and is scalable given you can add up to 10 instances per box.

How Do I Get Started?
